

Helping Life Science Companies Prepare for Successful GMP Manufacture

Independent manufacturing readiness, CMC strategy and technology transfer support for biotech companies preparing for external manufacture.

**15+ YEARS SUPPORTING
PHARMACEUTICAL MANUFACTURING**

Experience across global pharmaceutical companies, CDMOs, biologics, vaccines and GMP manufacturing.

About the Founder

Akeel Ahmed

Founder, Evercrest Pharma

Akeel Ahmed founded Evercrest Pharma after more than 15 years supporting pharmaceutical manufacturing programmes across biologics, vaccines and advanced therapies.

Having worked across GMP manufacturing, quality, validation, CMC execution and technology transfer, he established Evercrest to help innovative life science companies prepare for successful external manufacture while avoiding costly delays and technical risk.

HOW EVERCREST HELPS

We help life science companies prepare for external manufacture. Working with founders, technical leaders and operations teams to reduce risk, strengthen capabilities and move programmes forward.

Reduce manufacturing risk

Identify gaps early and avoid costly delays.

Accelerate technology transfer

Improve execution and shorten time to manufacture.

Strengthen CMC readiness

Build robust, inspection-ready documentation and data.

Improve CDMO selection and engagement

Engage the right partners and transfer with confidence.

Protect investor milestones

De-risk your programme and maintain confidence.

WHERE EVERCREST ADDS THE GREATEST VALUE

MANUFACTURING READINESS SEMINAR

Practical seminars delivered in collaboration with Birmingham Health Innovation Campus (PHTA).

Preparing Your Programme for Successful GMP Manufacture

Topics include:

- ✓ Avoiding common scale-up mistakes
- ✓ When to engage a CDMO
- ✓ Building manufacturing-ready CMC documentation
- ✓ Practical steps to reduce risk, cost and delays

45-minute presentation + 15-minute Q&A
Repeat sessions every few months

QUARTERLY MANUFACTURING READINESS CLINICS

A complimentary 20-minute one-to-one review for companies seeking practical guidance on manufacturing readiness, CMC or technology transfer.

- ✓ Manufacturing, CMC or technology transfer questions
- ✓ Early guidance and practical feedback
- ✓ Identify gaps and next steps
- ✓ No obligation – just expert input

Book once per quarter
Online or in-person at PHTA

IDEAL FOR

- University spin-outs
- Venture-backed biotech
- Therapeutic developers
- Cell & gene therapy companies
- Companies preparing for GMP manufacture
- Teams selecting a CDMO

Helping innovative life science companies move confidently from discovery to manufacture through practical, independent manufacturing expertise.
